**Solidor®**

Leading the way in secure  
composite doors

## Introduction

The Solidor Collection is an outstanding range of industry leading, solid laminate, timber core composite doors. Each Solidor exceeds building regulation requirements and combines traditional and contemporary styling with a full range of Secured by Design locking which provides a stunning, high quality and secure entrance to any home.

With a thickness of 48mm, a Solidor door is nearly 10% thicker than most alternatives. Each unique solid timber core is completely encapsulated within a highly durable plastic edge banding and two thermo plastic door skins. This means that your customer will never have to worry about painting or varnishing their Solidor.

These doors are exclusively available in the widest range of styles and frame colour options, (20 colours available, please see page 8) with the option of a mobility threshold, making it the perfect solution for easy wheel or push chair access. We offer a comprehensive range of matching coloured frames, that are available with either glass, composite side panel or quarter panel to compliment the look of any property.

Solidor composite doors are manufactured to the highest standards. We hold BSI Kite mark accreditation BSI ISO 9001 for quality management, BSI EN1279 for insulating glass units.

We are also PAS24:2016 certified, hold CE Marking and Secured by design licences, are members of the prestigious GGF and Association of Composite Doors.

# Choosing Solidor®

**We understand that knowing your home and family are protected is a major factor when choosing your new doors.**

You can rest assured that with our door construction, coupled with our unique, reinforced door frame and Secured by Design locking systems, your property will be as safe as can be when you choose Solidor.

## The Comparison

### A typical foam filled construction

- Only a small section of the door is actually solid.
- Thermally good, but foam filled so not solid, nor secure.
- Gel coated GRP may be strong but it scratches very easily and can be cut through.
- Most other doors have frames containing lead stabilisers.
- The frames are only 3 chambers thick and use valuable steel or aluminium reinforcements.
- Can be cut through in 90 seconds

### Solidor® construction

- Lead free, 5 chamber profile with 100% recycled reinforcing.
- Thermally efficient Solid Timber Core.
- Robust through colour thermo plastic skins.
- Realistic wood grain effect.
- Optional integral mobility access aluminium threshold.

**PAS 24  
- 2016  
CERTIFIED**

# Security

# The most secure composite door on the market

## Lock options

### The Largest Deadbolt in the UK!

On lever handle doors we fit our Avantis Secured by Design lock. This has the industries largest 25.4mm deadbolt for added security.

It also has built in compression and dampeners to give the smoothest operation on the market.

### Automatic AV2 Mech Lock

The automatic AV2 mechanical lock operates as a slam secure lock as soon as the door is closed.

AV2 B allows home owners to unlock the door from a distance using a remote control device. (Only available with a lever/lever handle)

### Automatic AV3 Mech Lock

The new autoLock AV3 automatic multi-point locking system has a magnetic trigger in the frame. Two self-locking sturdy hooks provide security and two sealing elements ensure correct closure.

An optional daytime release function can be integrated with easy one-handed operation or motorised release.

## Lock Positioning

### Standard Slam Shut Auto lock

The Slam Shut lock is an automatic multi-point locking system. It features two self-locking hooks to provide additional security and two sealing elements ensure correct closure.

### Heritage Slam Shut Lock

The aesthetics of a traditional rim latch, but incorporates the latest high security slam shut technology.

The lock automatically engages as the door closes.

### Key Operated Multi-Point Lock

Customers who do not want handles can upgrade to our key operated multi-point lock.

# The Solidor Promise

At Solidor we are committed to doing our part in helping the environment, believing that the future of our planet is important, not only for ourselves, but for the future of our children. With many industry firsts already, we are always looking to pioneer greener products and methods.

That's why we minimise our waste and run an extensive recycling programme. We recycle all of our packaging, polystyrene, cardboard, PVC-u, timber, paper, aluminium and steel. All of the timbers used in our doors are harvested from forests which are managed to meet the social, economic and ecological needs of present and future generations.

## Our Green Credentials

Timber can make a significant contribution to sustainable construction

1. Wood is naturally renewable
2. It is independently certified to be sourced from sustainably managed forests
3. Doors with timber cores save energy
4. They last longer
5. They add to our quality of life
6. They have fewer environmental impacts than other materials
7. Complies with minimum U-value requirements for building regulations

- 100% recycled thermally efficient reinforcing system
- 5 chamber lead free thermally efficient profile
- Extensive recycling programme
- Door can be recycled at the end of its useful life, not destined for land fill
- Fully manufactured in the UK to minimise our carbon footprint
- Lead free door skins and edge banding

## CONTEMPORARY

# Italia Collection

The Italia collection from Solidor is a new generation of truly contemporary designs which will add a touch of style to your home. Carefully designed and crafted from the finest materials, every door in the Italia collection has a definite style inspired by the Italian passion for design.

Each door is handmade in Staffordshire, ensuring the finished product is of an outstanding quality and made as individual as can be. Choose from a range of glass styles and door furniture which have been carefully chosen with the latest fashion and designs in mind. All of the doors in the Italia Collection are also available with Warwick Glass - hand made so no two pieces are ever the same.

As with any product from Solidor, you can be assured of the outstanding quality of our solid laminate 48mm timber core composite doors which combine modern styling with high security locking systems.
